Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 – 10, 15 – 19 and 29 - 39 rejected under 35 U.S.C. 103(a) as being unpatentable over U.S Patent No. 5,642,410 (Walsh et al.) in view of U.S. Patent No. 6,014,440 (Melkild et al.).

Walsh et al. teach a communication system comprising at least one telephone switch and a communication device and an interface between the telephone switch and the communication device and serving as a protocol interpreter of multiple switch protocols. (see Col. 2, lines 52 – 55 and Col. 11, line 13 – Col. 13, line 55).

Walsh et al. may not teach a common protocol format, but Melkild et al teach that such is old in the art (see Summary of Invention). It would have been obvious to one of ordinary skill in the art to have incorporated such a common protocol format as taught by Melkild et al. into the Walsh et al. system as such would bring a higher degree of flexibility and efficiency to the system.

Response to Arguments

Applicant's arguments with respect to claims 1 – 10, 15 – 19 and 29 - 39 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

U.S. Patent No. 6,304,650 (Takeshita) – note Figs. 5 – 6; and

U.S. Patent No. 5,799,076 (Sitters et al.) – note Summary of Invention).

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
